There is a tremendous desire to unveil the unknown and unexplored areas of knowledge in all fields of academic enquiry. Due to the tremendous interdisciplinary approach no discipline goes untouched from the research activity. The genesis of ' Avishkar- A State level Research Convention " lies in the success of Sports meet "Ashwamedh" and Inter-University Cultural Festival "Indradhanushya" which provide opportunity for all round development of personality of students. His Excellency Dr. S. M. Krishna, the then Chancellor mooted the concept of providing a platform/opportunity for expression of research talent of students. It is for inculcating research culture , to encourage original thinking among students and provide an opportunity for expression of academic talent . Such type of activity is essential in the era of intellectual property rights with the implementation of WTO-GATS and patenting of research. To make the country competent and competitive, promoting research activities at the right age is the only solution.
